

CAL HIDRAULICA NHL 5, Natural hydraulic lime NHL 5.

Descripción

Natural lime of hydraulic hardening suitable for using as a conglomerating in mortar for restoration, grouting, prefabs, etc...

Aplication

It is used as a conglomerating of lime based cortar for mansory, making prefabs, soil stabilization and bituminous mix.

Surface preparation

According application.

Modes of application

- It is used as a conglomerating in mortars, with hydraulic lime, sand and water.
- In the industry of celular and normal concrete prefabs acts as a filler and the pozzolanic reactions give rise to products more resistant.
 - Soil stabilization.
 - Bitumen blends.

Clean up

With water.
