

# METAIS G-P-B, ANTICORROSIVE PRIMER AND PAINT.

# Descripción

Primer and antioxidant paint for protecting metallic surfaces applicable by brush or spray gun. Free of Zinc Chromate. Grey colour. Solvent: DISOLUAIS.

# **Aplication**

As primer and paint at the same time (only in indoors), on metallic surfaces made of iron or steel. On surfaces which are not made of iron or steel is necessary to do a previous treatment with IMPRIGALVI. In outdoors only is suitable to use as a primer on metallic surfaces made of iron or steel for subsequent finishing with a synthetic enamel such as ESMAIS OR ESMAR.

### Surface preparation

The surface must be clean, free of dust, oils and other polluting agents which decreases the adherence on the supports and provides a perfect finish.

#### **Modes of application**

Shake and stir well the containt of the package before using.

Apply two layers by brust using DISOLUAIS as solvent in the minimum quantity required for a correct

application.

Allow al least 6 hours between layers.

In indoors, its application turns in a antirust finishing.

In outdoors, protect with two layers of synthetic enamel such as ESMAIS, ESMAR the only suitable products.

#### Clean up

With Teais solvent DISOLUAIS while the product is wet.
